Lap Sponges

Laparotomy Sponges, made of 100% absorbent cotton, with super softness, patient comfort and high absorbency. All cut edges are folded in and stitched by the sewing threads. With a wide range of specifications in size, ply and thread count. Available in with or without loop; with or without X-ray detectable thread/chip; pre-washed or non-washed. Various in white color, green color and blue color. Offered in non-sterile package and sterile package. Ideally used to absorb wound exudates. Sterile ones can be used for absorption of wound exudates and block open wounds from bleeding during surgical operation.
