About Us

Dignity is the brainchild of Romsons Group of Industries, a name synonymous with medical excellence and innovation. With more than 70 years of expertise in manufacturing, Romsons has established its dominance in the disposable medical and surgical device industry not only in India but the world over.
Dignity was our first step towards the Patient Care Division. With the growing awareness of Adult Diapers amongst people and the need to address the problem of incontinence, Dignity was born. The idea was to challenge the existing social taboos predominantly present in India with the usage of adult diapers, and to extend a caring helpful hand towards people suffering from a leaky bladder. We at Dignity realize that the problem of incontinence can really affect a person's lifestyle, and we as caregivers can do the least to instill that lost confidence back into their lives.
The brand went on to add a long list of products to its portfolio ranging from Adult Diapers to Light Incontinence Pads, Maternity Pads, Underpads and so on. Dignity has also taken a step towards baby hygiene with different kinds of products including water wipes, aloe vera infused wipes, bamboo fabric wipes and baby mats.

Why Choose Us?

Dignity has a scientifically proven research centre and we are constantly innovating and improvising to give you and and your loved ones the best quality products available in the market. With a legacy dating back to 70 years, Romsons has established deep ties with the medical fraternity. The doctors world over swear by our brand and the products we have to offer. When it comes to health, choose nothing but the best.
