CERVICAL PILLOW REGULAR

GS-1950

It is designed to keep the neck in the slightly hyperextension position at night to counter the stress and strain of the day where we tend to keep the neck in the opposite "flexion" position. It cures the cervical problems while you sleep.

- Anatomically Designed
- Ultimate Comfort
- Aesthetically Pleasing
- High Resilience

SIZE	Universal
INCHES	3 - 4.5

M.R.P ₹ 1290

GS-1932

CERVICAL COLLAR FIRM

It is used for supporting, immobilizing or adjusting the neck in the required position. Recommended where a partial or controlled immobilization of the cervical region is required.

- Controlled Immobilization
- Comfortable Snug Fit
- Anatomical Shape
- Skin Matching Color
