FIX-O-CATH

IV CANNULA DRESSING

FIX-O-CATH ® GS-3179

- Reinforced PU transparent dressing for secure, tidy up-keepment of the I.V. Cannula penetration site.
- High water vapour transmission permeability prevents moisture build up, thereby reduces the risk of infection
- Ergonomically shaped transparent window on dressing allows convenience of visual inspection cannulation site.
- Skin friendly, hypoallergenic adhesive coat easy to remove after use.
- Additional adhesive strip provided for firm fixation of I.V. Cannula.
- Sterile, individually packed in peel open pack.
