Romsons

ROMOGUARD™

Transparent Dressing with Non-adherent pad

Description:

- A sterile, single-use dressing made from a thin, transparent polyurethane (PU) film.
- Waterproof and breathable, allowing for moisture vapor transmission while preventing External contaminants from entering.
- Features a gentle, hypoallergenic adhesive for secure and comfortable adherence.
- Offers excellent visibility for wound monitoring Without removing the dressing.

Uses:

- Ideal for post-surgical wound care.
- Can be used for a variety of wound types, including incisions, grafts, and burns.
- Protects the wound from water, bacteria, and other contaminants.
- Reduces the risk of infection.
- Allows for frequent visual inspection of the wound without Disturbing the healing process.
