Romsons

ROMOPOR™

Non-woven dressing with Non-adherent pad

Description:

- A sterile, single-use medical dressing made from soft, breathable non-woven fabric.
- Coated with a hypoallergenic adhesive for secure attachment to the skin.
- Features a non-adherent absorbent Pad to protect the wound from infection and promote healing.
- Available in various sizes to suit different wound dimensions.

Uses:

- Ideal for minor cuts, scrapes, burns, and abrasions.
- Protects wounds from dirt, bacteria, and other contaminants.
- Absorbs exudate (fluid) to maintain a clean wound environment.
