SURGEINE HEALTHCARE

SURGICAL DRAPES & PACKS

SURGICAL DRAPES & PACKS

Designed for Safety, Comfort and Flexibility

We, at Surgeine, manufacture a complete line of surgical drapes to be used in these complex procedures with an objective of reducing the risk of contamination and surgical site infections (SSI). Our general surgery drapes are flame-resistant, abrasion-free and low linting. In addition, these drapes are manufactured with high-quality fabric which is tear-free, comfortable and easy-to-use in the operating room.

Design

We follow recommended guidelines of the Association of Perioperative Registered Nurses (AORN) in the design, folding and packing of each set. Each pack has a label with full set of instructions for use including the right aseptic and fast removal, use and disposal. These drapes are elegantly and ergonomically designed to cover persons from one fingertip to the other and to operate as a wider anesthesia screen.

Reinforcement

Exceeding ASTMF 1671 specs, the design and construction incorporates fenestrations and splits in each drape surround areas of impervious reinforcement made with highly absorbent fabric to absorb blood and body fluids while the plastic backing prevents further transmission.

Containment of Fluids

Select designs carry inbuilt pouches that will collect blood and fluids draining from the body and reduce risk of contamination, spread and exposure to OR personnel. These pouches also make it conducive to clean up and dispose off such fluids.

Adhesive

Meticulous to the last detail we ensure use of skin-friendly adhesive tapes to keep drapes fitted in place without affecting the barrier. We include incise as routine in C-section drapes, carniotomy drapes and open heart drapes.

Fabric Choices

We offer surgical drapes and packs with a choice of various fabrics to suit end use. Buyers can pick from trilaminate, spunlace and SMMS fabric, each made to the highest standards of protection, comfort and ease of use.

SURGICAL DRAPES & PACKS RANGE

Variety is Key to Our Range

Whatever the procedure we have a drape that will work perfectly in even the most exacting circumstances. We are the one source for the maximum variety as regards shapes, sizes, materials and designs to give the best overall performance and ease of use.

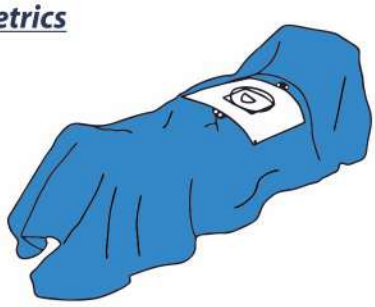

General Surgery

- Universal packs
- Basic Packs
- Laparoscopic Pack
- Laparotomy Pack
- Fenestrated Drapes
- Plain Drapes
- Utility Drapes
- Split Drapes
