CLINICATEX SURGICAL DRESSING KITS

Sterile, Reliable, Ready - Every Dressing, Every Time

Multifaceted Solutions for Safe, Aseptic and Standardized Wound Care

SURGEINE HEALTHCARE

Introduction to Surgical Dressing Packs

ClinicaTex Surgical Dressing Packs are expertly curated, pre-assembled kits developed to support clinicians in delivering effective, aseptic wound care across a wide range of healthcare settings. These sterile, single-use kits are designed to enhance infection control, improve workflow efficiency, and simplify dressing procedures—making them a trusted solution for high-demand environments such as operating rooms, emergency departments, and outpatient care facilities.

Key Product Benefits

Pre-Assembled for Efficiency: Reduces prep time and accommodates steady workflow

Sterile and Single-Use: One-time use only, preventing the risk of cross-contamination

Variable Setup: Permits selection of components according to your hospital or departmental protocol

Supports ANTT® (Aseptic Non Touch Technique): Shields Key-Parts and Key-Sites during dressing procedures

Easy-to-Use Design: Peel-open packaging, color-coded tabs, and user-friendly layouts minimize procedure errors

Safe Fluid Handling: Trays have high walls, flared sides, and sloped grids to efficiently control blood and irrigation fluid

Advanced Fluid Management

Adequate fluid handling is essential throughout the processes of dressing. ClinicaTex trays are intended for:

- **Spill Prevention:** ***Flared tray sides and high walls ensure overflows and accidental splashes are eliminated***
- **Support for Drainage:** ***Sloping grid bottoms assist in channelling undesirable fluids away from the work area***
- **Dual-Tray Systems:** ***Available for procedures requiring separate antiseptic and disposal compartments***

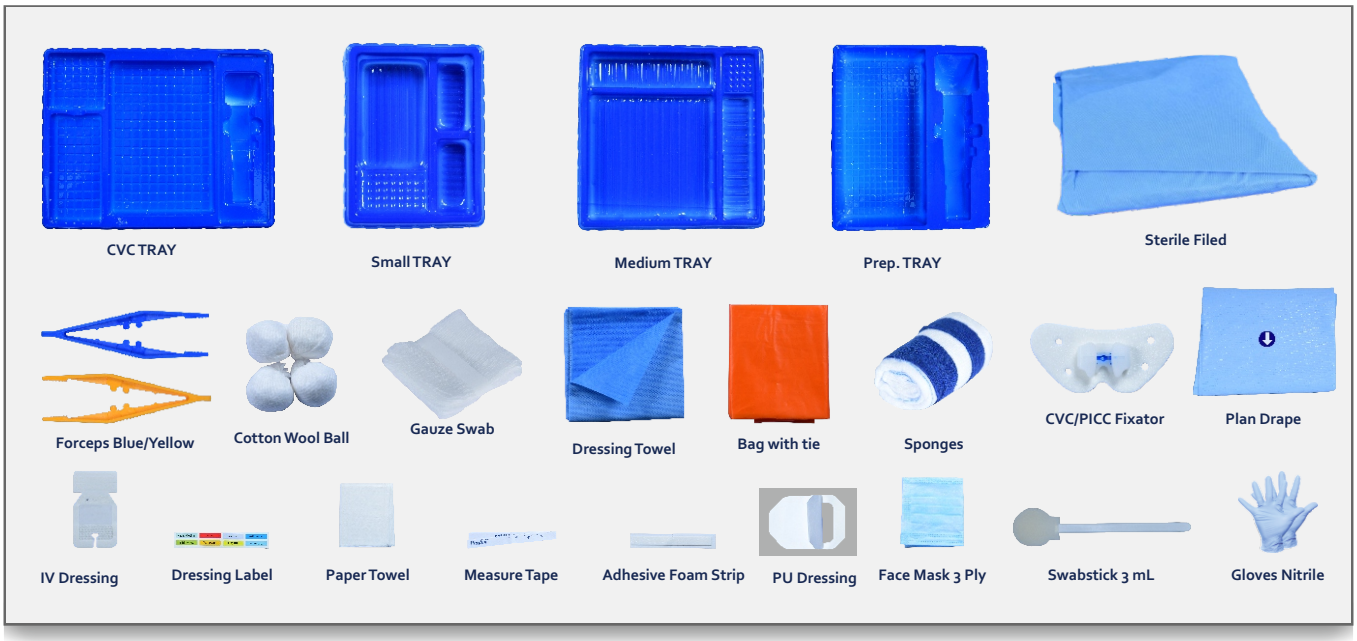

Clinical Performance at a Glance

- **35% less dressing time**
- **45% improvement in efficiency**
- **60% infection risk Reduction**
- **100% compliance with hygiene and sterility protocols**
