SALEM SUMP TUBE

DUODENAL DUAL FLOW TUBE

Dual flow type tube designed to prevent accumulation of gastric secretions & air, thus allowing decompression of stomach through continuous aspiration without trauma.

SALEM SUMP TUBE

SALEM SUMP TUBE GS-4018

- Double lumen nasogastric tube, made of medical grade polymer.
- Coned distal end with ten lateral eyes.
- Tube marked at 45, 55, 65 and 75 cm from the tip.
- Air-vent lumen ensures continuous atmospheric air flow, preventing vacuum lock & protecting gastric mucosa from suction-induced injury when it has been evacuated
- Secondary lumen is provided with universal funnel shaped connector to accommodate catheter tip syringe to facilitate irrigation.
- Proximal end is provided with universal funnel shaped connector, along with double tapered connector for easy extension.
- Radio opaque line throughout tube length.
- Sterile, individually packed.
- Box of 20/ Master Box of 400
